1:30 – 2:30 PM	1Spatial Solutions	Charley Glynn – Product manager <i>1Spatial UK</i>	This presentation will highlight the comprehensive set of Location Master Data Management software components within our 1Spatial Platform. Our platform integrates servers, portals, dashboards, SDKs, APIs, data connectors, business-focused applications, and our patented 1Integrate rules engine. We'll showcase a live demonstration of the 1Capture Android app tablet, emphasizing its practical application. Additionally, we'll delve into the functionalities of 1Integrate and 1Data Gateway, essential tools for seamless data integration. Our discussion will also touch upon PAI, focusing on its significance for customers in WA DPLH. We'll introduce our UN Readiness App, designed to support utility network migration, particularly relevant to the experience with Hunter Water. Furthermore, we'll explore the role of AI in leak detection with 1Leakage and optimising operations with 1Streetworks, designed to create compliant traffic management plans in just 2 minutes. Lastly, I'll discuss NUAR - The National Underground Asset Register, providing insights into its implementation and implications.
2:30 – 3:00 PM	Managing City of Cockburn's Cloud Migration and ESRI Field Operations with FME	Nathan Sharp <i>City of Cockburn</i>  James Botterill <i>1Spatial</i>	TechOne's ERM & CRM migration to cloud store has brought about interoperability challenges supporting legacy data stores and affected workflows. FME is utilised as the integration engine to provide connectivity between ArcGIS Portal feature services and the T1 Customer Requests SaaS store via a sFTP exchange of files. The talk will demonstrate the use of a Change Detector transformer to compare each dataset, writing the new or updated records to the ArcGIS Portal. FME Flow is utilised to schedule the synchronisation at intervals suitable for the data volume.
