

Senior Project Manager (Software Development & Customer Delivery)

Department: Project Management

Location: Remote in England (currently home working due to Covid 19 restrictions, candidate should be willing to reliably commute to Cambridge UK office, when required)

Employment type: Permanent

1Spatial's mission is to place location data at the heart of decision making for government and the commercial sector, enabling their services to deliver safer, sustainable and smarter communities. We are an award-winning global business with a passion for data and are leaders at implementing and supporting geospatial solutions, with offices in Cambridge UK, USA, France, Australia, Ireland, Belgium and Tunisia.

Would you be a good fit for 1Spatial Project management team?

We are looking for people who are approachable, smart and innovative and who care about learning and continuous improvement, to join an exciting programme that will deliver state of the art data management and data integration products to the aeronautical and defence industry. As part of this team, you will help 1Spatial deliver its next generation geospatial aeronautical products that will provide greater levels of aviation safety. By joining our talented aeronautical teams, you will be part of a programme of work that is central to 1Spatial's growth strategy.

We take pride in our outstanding reputation created by working in collaboration with our customers. We encourage our teams to spend time on customer's sites to foster this way of working. In this role you may be expected to travel within the UK (subject to Covid 19 restrictions), including overnight stays.

We are looking for an experienced project manager with a proven record of delivering complex software development and integration solutions, working in a wider consortium. You will be required to coordinate a group of 1Spatial teams responsible for the development, test and integration of solutions which must meet a demanding set of quality criteria. You will be responsible for monitoring and reporting the progress of the work, identifying internal and external dependencies of the delivery teams and ensuring that those responsible are aligned. You will encourage a collaborative approach within the delivery teams for the identification and mitigation of risks and issues and be a confident communicator across the spectrum of stakeholders. You will have excellent commercial acumen being able to deliver to a fixed budget and understand risks that may impact that.

Required Skills and Experience:

- Successful track record in commercial project management in customer facing roles in Software industry
- Managing large programmes of work as part of a consortium
- Delivering projects with extensive security requirements
- Delivering projects with high levels of quality standards and controls
- Proven experience in setting up and executing software development projects following both waterfall and agile (SAFe) methodologies
- Overseeing the coordination of multiple teams and ensuring that their deliverables are successfully integrated

- Strong commercial acumen, with an eye for detail
- Proven ability to manage and mitigate project risks; escalating when necessary
- Working with remote teams, both in the UK and overseas

Desired Skills and Experience:

- Experience of working for customers in the defence and/or aeronautical data sector
- Working as part of a consortium (either prime or sub-contractor)
- Project management qualifications for waterfall and agile methodologies (e.g. Prince 2, PMI-ACP)
- Project management tools (Microsoft Project, Jira, PSA/Salesforce)
- Familiarity with standards and certifications (ISO 9001, ISO 27001)
- Knowledge of French language

What we can offer:

- Competitive salary
- Flexible working hours
- 25 days annual leave
- Generous company pension scheme
- Group income protection scheme
- Private health insurance
- Health Cash Plan
- Buying/selling annual leave
- Cycle to work scheme
- Personal Development Allowance to support your Continuous Professional Development
- Active social programme including both virtual and in-person events

When we return to our spacious open plan office, you will also benefit from:

- Free car parking
- Easy rail access
- Soft drinks and fruit

Interested?

If you require further information or would like an informal chat about the role, please contact recruitment@1spatial.com and we will arrange for you to speak with the hiring manager.

We require that all candidates are able to demonstrate their eligibility to work in the UK.
