

Carbon Reduction Plan

Supplier name: 1Spatial Group Limited

Publication date: 14/10/2024

Commitment to achieving Net Zero

1Spatial Group Limited is committed to achieving Net Zero emissions by 2050

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2023	
Additional Details relating to the Baseline Emissions calculations.	
This is the second year we have reported our emissions since resetting our baseline for 2023 to include all significant scope 3 emissions. It is based on our financial accounting year of April-March.	
Our Baseline calculation includes: <ul style="list-style-type: none">• Scope 1: Direct Emissions• Scope 2: Indirect Emissions• Scope 3 Categories: 1: Purchased goods and services: 2: Capital goods: 3: Fuel and energy related activities: 4: Upstream transportation & distribution: 5: Waste generated in operations: 6: Business travel/Hotel stays: 7: Employee commuting/Teleworking: 8: Upstream leased assets:	
Our Baseline deviates from the requirements under PPN 06/21 as follows: <ul style="list-style-type: none">• Scope 3: Category 9: Downstream transportation & distribution: is not included as is not included as we do not sell or transport any goods to our customers. .• Scope 3: Category 1: Purchased goods and services: is included as is included for completeness.Scope 3: Category 2: Capital goods: is included as is included for completeness.Scope 3: Category 3: Fuel and energy related activities: is included as is included for completeness.Scope 3: Category 8: Upstream leased assets: is included as is included for completeness.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	2.3 tCO ₂ e
Scope 2	32.3 tCO ₂ e
Scope 3 <small>(included sources as detailed above)</small>	710.1 tCO ₂ e
Total Emissions	744.7 tCO₂e

Carbon Reduction Plan

Current Emissions Reporting

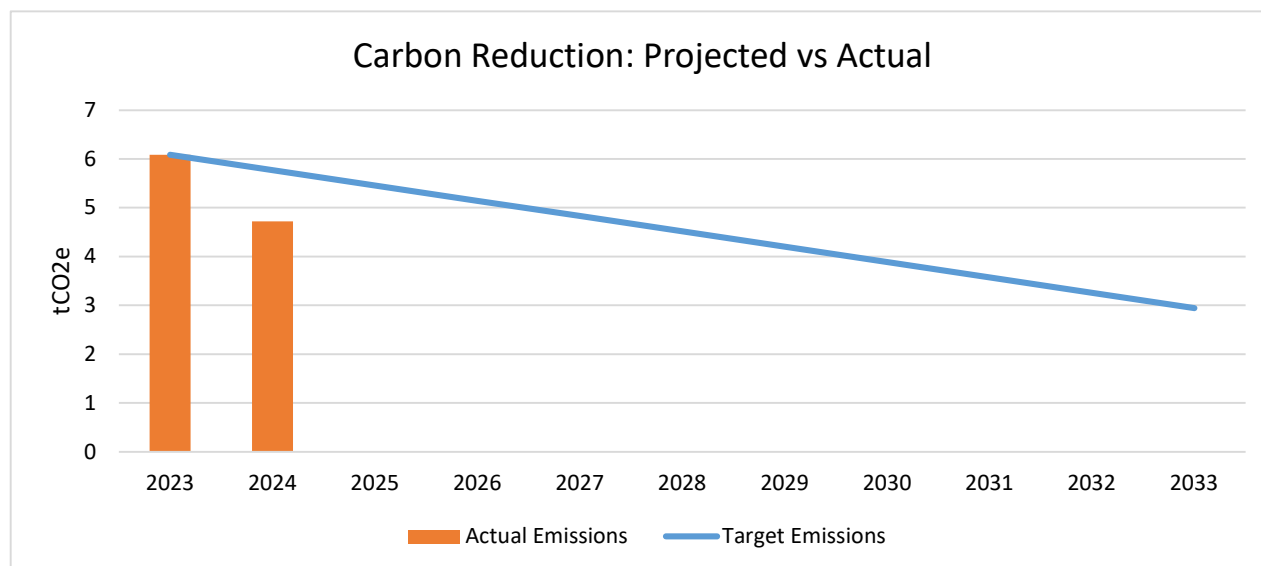

Reporting Year: Feb 2023 to Jan 2024	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	1.5 tCO ₂ e
Scope 2	29.7 tCO ₂ e
Scope 3 <small>(Included sources as detailed above)</small>	562.2 tCO ₂ e
Total Emissions	593.4 tCO₂e

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that the intensity of our carbon emissions will decrease over the next ten years from 6.1 tCO₂e/FTE to 2.9 tCO₂e/FTE by 2033. This is a reduction of 51.6 %

Progress against these targets can be seen in the chart below:

Carbon Reduction Plan

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2023 baseline and the measures will be in effect when performing the contract. The carbon emission reduction achieved by these schemes equate to 151.3 tCO₂e, a 20.3% reduction against the 2023 baseline.

- Developed baseline targets and implemented measures to track carbon emissions.
- Sustainable travel scheme support globally, including subsidies available for using public transport or bikes.
- Electric vehicle charging installation, with future company vehicle procurement review
- We have recycling initiatives across our offices including recycling our computer equipment. We actively source and choose recycled stationary and other office supplies wherever possible.
- We have offset the emissions from our website

Future Carbon Reduction Initiatives

In the future we hope to implement further measures such as:

- Adopt a Sustainable travel policy and make it easier to book public transport
- Move to smaller, more fuel efficient premises
- Make renewable energy part of the discussion on new premises selection
- Create stakeholder engagement plans for; Critical suppliers; Employees and Company Leadership

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans. Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:

Name: Claire Milverton
