	Topic	Presenter	Notes
8:30 -9.00 am	Registration		
9:00 – 9:15 am	Induction from 1Spatial	Andrej Mocicka *1Spatial Australia* Don Murry *Safe Software*	Let's begin with a warm welcome to our team and our special guest, along with some important housekeeping details for the day
9.15 – 10:00 am	Morning Tea – Networking session	*All attendees*	Audience members will engage in topical group discussions and network with peers—both familiar faces and new connections. Join us to collaborate on addressing your latest data challenges in a supportive environment.
10:00 – 11:00 am	Exploring FME 2025: Key Updates and Integration Trends from UC 2025	1Spatial Australia *Services Team*	This latest version is packed with innovative features and enhancements designed to elevate your data-handling capabilities. **Key Features:** **Remote Streams:** Enable real-time data processing for immediate insights. **Heartbeat Streams:** Enhance monitoring for improved system reliability. **FME Flow as a Connection Storage Location:** Streamline access and management of connections. **User Parameters:** Building on the Conditional Visibility feature from FME 2023, FME 2025 now introduces Compound Conditions. But that's not all! FME 2025 brings even more enhancements, integrations, and powerful new capabilities to make your data handling more agile, flexible, and efficient than ever before.
11:00 – 11:30 am	Network Information Tool NIT	Peter Twiby *Western Power*	Providing electrical contractors with self-service data extracts using the FME rest api and an automation with a parent and child-run workspace orchestration
11:30 – 12:00	1Spatial: Transforming Utility Network Migration Worldwide	1Spatial *US Video*	1Spatial is revolutionising the way utility networks are migrated globally, providing solutions that ensure seamless transitions and improved data management.

			Today, you will hear about the following Case Studies:
			• **Hunter Water, Australia:** Successfully transitioned to the ArcGIS Utility Network with 1Spatial's comprehensive tools, enhancing operational capabilities and data integrity. • **Holland Board of Public Works, USA:** Partnered with 1Spatial to accelerate their UN ArcGIS migration journey, achieving efficient and accurate data migration. • **Welsh Water, UK:** Achieved significant milestones with 1Spatial's support, streamlining their utility network migration and ensuring data accuracy and operational efficiency.
12.00 – 1.00 pm	Lunch		
1.00 pm – 1.30 pm	Customer Presentation	Mick Yang *Synergy*	Gain valuable insights from our customer presentations and learn firsthand from their experiences.
1:30 – 2.00 pm	Official Release of GDV Hub's Support for A-SPEC 2023	*GDV Hub*	Join 1Spatial and Digital Hive for the official release of GDV Hub's support for A-SPEC 2023! This release introduces powerful features to enhance data validation and management: 1. **Overlap Detection:** Identify overlapping points, lines, or polygons. 2. **Invert Level Alignment:** Ensure invert levels align with established rules. 3. **Attribute Resolution:** Detect and resolve missing attributes efficiently. Discover how GDV Hub's new capabilities can streamline your data processes and improve accuracy. Don't miss this opportunity to learn more about these exciting advancements!
2.00 – 2.30 pm	The Future of Spatial Data	*1Spatial*	Explore the evolution and future of spatial data with 1Spatial. Our presentation, "Beyond Today: The Future of Spatial Data," highlights innovations in 1Integrate, 1Data Gateway, and PAI applications. Discover new features and methodologies that will shape the industry's future, improving processes and uncovering new insights. Join us to see how these advancements will transform spatial data technology.
2.30 – 3:00 pm	FME as a Real-Time Geoprocessing Service: Powering Environment Online	Nicholas Chai and Tim Fardon *NGIS & Department of Water and Environment Regulation*	This presentation will delve into the Department of Water's "Environment Online" project, first introducing the Environment Online application and its purpose as a regulatory tool and application for the state and then showcasing how FME Server is used as an on-demand geoprocessing service to validate and integrate spatial data. Unlike traditional scheduled data-loading workflows, this project demonstrates FME's role as the GIS backbone of a web application, handling user-submitted data in real time and seamlessly interacting with ArcGIS Server and frontend applications.
3.00 – 3:30 pm	Afternoon tea		
3.30 - 4.00 pm	Managing Environmental Permits Using FME	Tim Dunlevie *De Grey Mining Ltd*	Gain valuable insights from our customer presentations and learn firsthand from their experiences.

4:00 – 4:30 pm	Interactive Wrap-Up Q&A + Prizes	Andrej Mocicka *1Spatial*	Gotta a question you would like to ask our technical staff? Well, now is the time. Practice what you learned today in this interactive wrap-up demo, with lots of chances to win prizes!
4:30 - 5:00 pm	Network Drinks	*Everyone Welcome*	Stick around for a great afternoon of networking with like-minded people while enjoying a few drinks.
