	Topic	Presenter	Notes
8:30 -9 am	Registration		
9:00 – 9:15 am	Induction from 1Spatial	<p>Andrej Mocicka <i>1Spatial Australia</i></p> <p>Andy Berry CEO VertiGIS</p> <p>Julian Co Safe Software</p>	<p>Let's begin with a warm welcome to our team and our special guest, along with some important housekeeping details for the day.</p> <p>Welcome VertiGIS to the Australian Market</p> <p>Safe Software Welcomes You to the 2026 World Tour</p>
9.15 – 10:00 am	Morning Tea – Networking session	<i>All attendees</i>	Attendees will join interactive roundtable discussions to share experiences, exchange ideas, and connect with peers old and new. It's a chance to collaborate on your latest data challenges in an open and supportive setting.
10:00 – 10.30 am	Introducing VertiGIS: A New Era for 1Spatial in Australia	<i>VertiGIS</i>	Learn how 1Spatial's transition into the VertiGIS family unlocks new opportunities for customers across Australia. In this session, VertiGIS will introduce its global vision, expand product ecosystem, and strengthen commitment to helping organisations manage, integrate, and deliver high-quality geospatial data. Attendees will gain insight into what this transition means, what will stay the same, and the new capabilities and innovations VertiGIS will bring to the region.
10:30 – 11:30 am	FME 2026: What's New and What's Next	1Spatial Australia <i>Services Team</i>	Discover the latest advancements in FME 2026.1 and get an exclusive preview of what's coming under Safe Software's new quarterly release model . This session will highlight significant enhancements across the platform, including expanded format support for Microsoft Fabric Data Warehouse, PMTiles, HDF5 Raster, Esri File Geodatabase (OpenFile Geodb) , and the technology preview of CityGML 3 . Learn how these updates strengthen enterprise integration , improve cloud-based workflows , and unlock new 3D data capabilities , helping organisations build more efficient, scalable and future-ready data transformation processes. Join us to explore what FME 2026 makes possible—and how you can take advantage of the newest tools available.

11:30 – 12:00 am	FME at SAPN: From Hidden Workflows to Shared Capability	Hugh Round & Golnoosh Farajollahi <i>SA Power Networks</i>	FME has become a critical component of our operational data workflows, replacing thousands of lines of custom code with reliable, supportable integrations. Its visual, repeatable processes have improved data quality, accelerated data transfers and enabled more valuable outputs for the business. This presentation will outline the core efficiencies gained, the challenges we've faced around internal standards and knowledge uplift, and our next steps as we move toward interactive API driven services and lightweight app integrations.
12.00 – 1.00 pm	Lunch		
1:00 – 1:30 pm	1Spatial Products & Solutions: Unlocking Smarter, Connected Geospatial Workflows	1Spatial	Discover how 1Spatial's solutions—including PAI , GDV Hub , and UN Migration —help organisations improve data accuracy, automate validation, and streamline complex geospatial workflows. This session highlights practical examples of how these tools deliver reliable, scalable, and connected data processes to support smarter decision-making and modern digital transformation.
1.30– 1.45 pm	A First Year with FME in Local Government	Kate Robinson <i>City of Mitcham</i>	The City of Mitcham has introduced FME to replace several manual GIS processes and legacy Python scripts. FME's visual interface has made it easier to understand, maintain and document these workflows. This presentation reflects on a first year working with FME in local government, highlighting how its intuitive design enabled rapid uptake and in-house workflow development, supporting more robust GIS practices.
1:45 – 2.00 pm	Highlights from Safe Software for 2026	Christian Fellingner <i>1Spatial</i>	Christian highlights key advancements from Safe Software in 2026, focusing on expanded integration capabilities, improved automation, and stronger enterprise support. He'll also share what's ahead for Peak of Data 2027 , offering a glimpse into future innovation and how organisations can prepare for the next evolution in data workflows.
2.00 – 2.15 pm	Key FME Capabilities Customers Value Most	Sales team <i>1Spatial</i>	This session highlights the FME features customers rely on most to power flexible automation, dependable integration, and enterprise-scale workflows. We'll also explore Data Virtualisation and Salesforce connectivity as practical examples of FME's integration strength. Together, these patterns enable secure, on-demand access to business and CRM data without unnecessary replication. The result is faster, more accurate decision-making and streamlined cross-system data management.
2.15 – 2.30 pm	Transforming Data by Region with FME	Nova Reinfeld-kirkman Australian Bureau of Statistics	This presentation looks at using FME in the context of producing Data by Region, one of the ABS' most visited products, which unites administrative, survey and Census data across a range of geographies. Using FME for a non-spatial purpose, (i.e., to transform tabular data) has the potential to create additional capabilities within the team producing Data by Region and further increasing efficiency and capacity across the Location Infrastructure Branch.
2.30 – 3:00 pm	Afternoon tea		
3.00 – 3:15 pm	Updating Customer Requests across multiple Platforms	Bruce Eaton + Cos Cirillo Mildura Rural City Council	Using FME Flow to minimise manual intervention of customer requests in multiple platforms from public requests (Snap Send Solve) Retrieving the Sanp Send Solve request, creating a new CRM in Civica Authority (customer support),

			<p>then to a works request in Brightly Assetic,(asset management).</p> <p>Adding the works request into internal GIS (Intramaps) for visual display, works routing, management overview, etc.</p> <p>Tracking updates from work performed in Assetic and updating Authority with status changes and notes.</p> <p>On works completion, closing the CRM in Authority and notifying the requestor in Snap Send Solve.</p>
3.15 – 3.30 pm	Interactive Wrap-Up Q&A + Prizes		<p>Gotta a question you would like to ask our technical staff? Well, now is the time.</p> <p>Practice what you learned today in this interactive wrap-up demo, with lots of chances to win prizes!</p>
3:30 - 4:30 pm	Network Drinks	<i>Everyone Welcome</i>	<p>Stick around for a great afternoon of networking with like-minded people while enjoying a few drinks.</p>

Please note that the agenda may be updated as needed.
