

## UI/UX Designer

**Department:** Development  
**Location:** Cambridge, UK (Currently working from home, hybrid model consisting of office and home working on offer)  
**Employment Type:** Full time, Permanent

In every sector, organisations are using location data to make better decisions – improving services, maximizing efficiency, and even saving lives. We are a global leader in providing software, solutions, and business applications for managing location and geospatial data. We are a growing global business with offices in Cambridge (UK), France, Australia, USA, Ireland, Belgium and Tunisia. Our 1Spatial Location Master Data Management platform delivers powerful data solutions and focused business applications on-premises, on-mobile and in the cloud.

**Why join 1Spatial?** Our people are the heart of 1Spatial. When you join us, we'll support your professionalism, dedication and aspirations through a positive, extremely flexible, and inclusive working environment built on a foundation of mutual trust and respect.

**Would you be a good fit to the 1Spatial Development team?** We are looking for people with proven interest in technology and belief in the power of teamwork. We love people who are approachable, smart, innovative, and agile and who care about learning and continuous improvement. You will be a self-motivated problem solver with good communication skills.

You will join a team that helps enhance and maintain 1Spatial's Platform. You will be passionate about continuous improvement and confident collaborating with developers, testers, architects, and product managers. As a UI/UX designer, you will help us develop a great experience and functionality for our suite of products and targeted solutions. Whilst you will be a member of our development team, you will work closely with Product Management to develop a single end-to-end, company-wide user experience to cover both enterprise and mobile based products.

### You will be responsible for:

- Working with Product Managers and Development teams to translate complex requirements and transform them into simple design and ensuring intuitive, efficient, task-centred user interaction
- Ensuring design advice that is consistent across multiple products and platforms, up to date and help define consistent 1Spatial's UI/UX guidelines
- Creating and maintaining digital assets, such as interface design files, wireframes, and interactive mock-ups using prototyping tools
- Contributing to a cross functional teams of developers, testers, and product managers as part of an Agile process

### Required Skills and Experience:

- Experience working with Product Managers to conduct user research and understand user requirements
- Experience working with Development teams to deliver user interfaces for web and mobile solutions
- Experience in UI/UX design and development for enterprise solutions
- Proficiency in designing interfaces and building low fidelity wireframes using tooling such as Balsamic, Invision, Adobe XD
- Proficiency in building interactable prototypes using industry standard tooling such as Sketch, Figma, Adobe XD
- A good understanding of software products and programming principles

**Desirable Skills and Experience:**

- Experience using or keen interest in Geospatial or Map based visual systems
- Experience in development of React based applications (using TypeScript)
- Experience of UI/UX design for mobile apps– Android Apps, iOS and Windows
- Experience in Defence/Government, Utilities or Transportation sector is a plus

**What we can offer**

- Competitive salary
- Flexible working hours
- 25 days annual leave
- Generous company pension scheme
- Group income protection scheme
- Private health insurance
- Health Cash Plan
- Buying/selling annual leave
- Cycle to work scheme
- Personal Development Allowance to support your Continuous Professional Development
- Active social programme including both virtual and in-person events

**When we return to our spacious open plan office, you will also benefit from:**

- Free car parking
- Easy rail access
- Soft drinks and fruit

**Interested?**
