12:00 -12.30 pm	Registration		
12:30 – 12:45 pm	Induction from 1Spatial	Andrej Mocicka <i>1Spatial Australia</i> Claire Milverton CEO 1Spatial UK Andy Berry CEO VertiGIS Julian Co Safe Software	Let's begin with a warm welcome to our team and our special guest, along with some important housekeeping details for the day. Update on 1Spatial and what the future holds. Welcome VertiGIS to the Australian Market Safe Software Welcomes You to the 2026 World Tour
12.45 – 1:30 pm	Lunch – Networking session	<i>All attendees</i>	Attendees will join interactive roundtable discussions to share experiences, exchange ideas, and connect with peers old and new. It's a chance to collaborate on your latest data challenges in an open and supportive setting.
1.30 – 2.00pm	Introducing VertiGIS: A New Era for 1Spatial in Australia	VertiGIS	Learn how 1Spatial's transition into the VertiGIS family unlocks new opportunities for customers across Australia. In this session, VertiGIS will introduce its global vision, expand product ecosystem, and strengthen commitment to helping organisations manage, integrate, and deliver high-quality geospatial data. Attendees will gain insight into what this transition means, what will stay the same, and the new capabilities and innovations VertiGIS will bring to the region.
1:30 – 2:30 pm	FME 2026: What's New and What's Next	1Spatial Australia <i>Services Team</i>	Discover the latest advancements in FME 2026.1 and get an exclusive preview of what's coming under Safe Software's new quarterly release model . This session will highlight significant enhancements across the platform, including expanded format support for Microsoft Fabric Data Warehouse, PMTiles, HDF5 Raster, Esri File Geodatabase (OpenFile Geodb) , and the technology preview of CityGML 3 . Learn how these updates strengthen enterprise integration , improve cloud-based workflows , and unlock new 3D data capabilities , helping organisations build more efficient, scalable and future-ready data transformation processes. Join us

			to explore what FME 2026 makes possible—and how you can take advantage of the newest tools available.
2:30 – 3:00 pm	Maintaining a Heavy Vehicle Road Network for the National Automated Access System	Tim Bendall <i>Esk Spatial</i>	<p>The first release of the new National Automated Access System (NAAS) for Heavy Vehicles occurred in 2025 and focussed on some of the largest and heaviest freight vehicles travelling on Tasmanian roads. More states and more types of vehicles are soon to come.</p> <p>The NAAS spatial team maintain the road network data for the program to ensure that it stays up-to-date, and use FME to automate as much of the update process as possible.</p> <p>This talk will explain why maintaining this data is such a challenge and how FME is being used as an indispensable tool in the spatial update process for the National Automated Access System.</p>
3:00 – 3:30 pm	1Spatial Products & Solutions: Unlocking Smarter, Connected Geospatial Workflows	1Spatial	<p>Discover how 1Spatial’s solutions—including PAI, GDV Hub, and UN Migration—help organisations improve data accuracy, automate validation, and streamline complex geospatial workflows. This session highlights practical examples of how these tools deliver reliable, scalable, and connected data processes to support smarter decision-making and modern digital transformation.</p>
3.30 – 4.00 pm	Afternoon Tea		
4.00 – 4.15 pm	Customer Presentation	TBA	<p>Join us as one of our valued customers shares a real-world look at how FME and 1Spatial technologies are transforming their workflows. This session will explore the challenges they were facing, the solutions they designed using FME, and the measurable benefits achieved across their organisation.</p>
4:15 – 4.30 pm	Highlights from Safe Software for 2026	Christian Fellingner <i>1Spatial</i>	<p>Christian highlights key advancements from Safe Software in 2026, focusing on expanded integration capabilities, improved automation, and stronger enterprise support. He’ll also share what’s ahead for Peak of Data 2027, offering a glimpse into future innovation and how organisations can prepare for the next evolution in data workflows.</p>
4.30 – 4.45 pm	Key features of FME customers have identified are important	Sales Team <i>1Spatial</i>	<p>This session highlights the FME features customers rely on most, powerful integration, flexible automation and reliable enterprise-scale workflows. We’ll also explore how data virtualisation supports real-time Salesforce and CRM connectivity without replication, enabling faster, more accurate decision-making and streamlined cross-system data management.</p>
4.45 - 5.00 pm	Interactive Wrap-Up Q&A + Prizes	1Spatial Team	<p>Gotta a question you would like to ask our technical staff? Well, now is the time.</p> <p>Practice what you learned today in this interactive wrap-up demo, with lots of chances to win prizes!</p>
5:00 - 6:00 pm	Network Drinks	<i>Everyone Welcome</i>	<p>Stick around for a great afternoon of networking with like-minded people while enjoying a few drinks.</p>
