

## **GIS Consultants**

**Head Office based in Cambridge or home based**

**Salary - Negotiable dependant on skills & experience**

**The role:** We are looking for Consultants who will be working with our customers to help build web-based mapping applications and solve their data-centric problems. The roles are varied and interesting and there will be a requirement for regular travel both in the UK and, potentially, globally. 1Spatial is a rapidly growing business and therefore personal development opportunities and prospects for promotion are high for the right candidates. You will be required to travel and therefore use of a car is essential.

**What will you do?** As a Consultant at 1Spatial, you will have two main roles. Your primary responsibility will be around delivering consultancy-led projects. Secondary, you will also be working in cooperation with the sales team to identify opportunities, construct demonstrations and deliver presentations to win business. You will define and deliver solutions that enable our customers to automate the modification, management and re-use of complex data, specifically:

- Working on consultancy-led projects focused on:
  - designing/developing customised GIS applications for customers
  - spatial data quality and management
- Supporting the 1Spatial Sales Team with insightful contributions
- Working with 1Spatial customers and community to assist in identifying opportunities where 1Spatial can add value and allow them to meet their needs

### **Required Skills:**

- Knowledge of spatial technologies
- Pragmatic approach to problem solving, with strong customer facing skills, strong analytical skills and attention to detail
- Capable of self-management
- Keen to learn, develop their skill sets and gain experience
- Keen to help others in the team develop their skills

### **Desirable Skills:**

- A Master's degree in a relevant GIS discipline
- Experience developing in an esri environment, specifically ArcGIS Server/ArcGIS Enterprise
- Knowledge of some of the following software technologies – JavaScript, HTML5, CSS, Proxies, VB.NET and ArcGIS Security
- Knowledge and experience of Microsoft Server, IIS, Geocortex and FME

### **What we can offer**

In return, we can offer you a competitive salary along with:

- Flexible working hours
- 25 days annual leave, plus recognition for long service
- Generous Company Pension Scheme
- Group Income Protection Scheme
- Private Health Insurance and Health Cash Plan
- Cycle to Work Scheme
- Child Care Vouchers Scheme

- Weekly hours of 37.5 per week, Monday to Friday
- Work base in Cambridge
- Social programme including monthly social gatherings and summer/Christmas parties
- Free car parking
- Refreshments including soft drinks and fruit

If you would like further information about 1Spatial or the position, please contact our HR department.

### **Interested?**

If you require further information or would like an informal chat about the role, please contact [recruitment@1spatial.com](mailto:recruitment@1spatial.com) and we will arrange for you to speak with the hiring manager.

Whilst we look forward to receiving your covering letter and CV via [recruitment@1spatial.com](mailto:recruitment@1spatial.com), we would ask that you read our [privacy notice](#) specifically for applicants so you can be confident of how we will store, manage and process the data you provide to us.

We do require that all candidates are able to demonstrate their eligibility to work in the UK.

### **About 1Spatial**
