

Senior C# Developer

Location: Cambridge, UK
Employment Type: Permanent

In every sector, organisations are using location data to make better decisions – increasing profits, maximizing efficiency and even saving lives. 1Spatial's suite of solutions help our customers manage their complex spatial data. We are a rapidly growing global business with offices in Cambridge (UK), France, Australia, America, Ireland and Belgium.

Would you be a good fit to the 1Spatial Development team? We are looking for people with proven interest in technology, commitment to agile software development good practice and belief in the power of teamwork. We love people who are approachable, smart, innovative and agile and who care about learning and continuous improvement. You will be self-motivated, a problem solver and good at communication.

In this role, you will be joining a growing team working at all levels of the technology stack on our wide range of new and existing products and geospatial solutions. Working in an agile team you will be involved in all phases of software development from analysis and design to implementation and testing.

Required Skills and Experience:

- Strong C# and .Net development skills
- Strong OO coding practices
- Experience and familiarity with
 - Unit testing (NUnit or similar)
 - Version control tooling (e.g. Git)
 - Continuous integration servers (Jenkins/Hudson or TeamCity)

Desired Skills and Experience:

- Desktop or Mobile development – (e.g. Xamarin, WPF, Android, iOS)
- Experience of manipulating complex data
- Experience and familiarity with
 - Build tooling (e.g. Cake, Gradle)
 - Databases (Oracle, Postgres or Microsoft SQL Server)
 - Configuration management tools (Puppet or Ansible)
